

Access Layer Switch S3700

Overview

S3700-24T4F is a Gigabit access switch designed for carrier's IP MAN (Metropolitan Area Network) and enterprise networks. It features 24 10/100/1000BASE-T RJ45 ports and 4 1G SFP optical ports. It can be managed with the Command Line Interface (CLI) and web-based Graphical User. They are developed by Huawei to meet the requirements for reliable access and high-quality transmission of multiple services on the enterprise network. Objectives Upon completion of this course, you will be able.

S3700-24T4F is an enterprise-class access switch of robust hardware with 24x 10/100/1000BASE-T RJ45 ports and 4x 100/1000M uplink ports in a 1U form factor, ideal for branch offices, midsize businesses, and small enterprises. Fanless design ensures noise-free switch operation, reduced cost, and. The S3700 series enterprise switches (S3700s) are next-generation energy-saving Layer 3 switches. The S3700 is easy to.

S6700 Series Switches Product Description (V200) S5700 Series Switches Product Description (V200) Huawei CloudEngine S5731-L4P2HT-RUA Remote Unit Switch CloudEngine S6700 Series Switches Product Description (V600) CloudEngine S5700 Series Switches Product Description (V600) CloudEngine S3700 Series. We also provide three series of access layer switches on FS. All of them are suitable for workgroups that require high bandwidth and network performance. However, they also differ from each other in some respects. For more. Choose Standard (SI) models for L2 and basic L3 switching; Enhanced (EI) models support IP multicasting and more complex routing protocols (OSPF, IS-IS, BGP).
