

Guyana Lighting Distribution Box Project

Overview

THE Guyana Power and Light Inc. (GPL) has embarked on its largest infrastructure project to date, valued at US\$422 million (approximately G\$90 billion), to expand and upgrade the country's transmission and distribution network. Recent. The Guyana Power & Light Inc (GPL) took another step forward with its Infrastructural Development and Modernisation Programme when it signed two contracts this week totalling more than US\$235 million, (in excess of \$50. 5 billion) that will impact the utility's transmission and distribution. SMP Engineering partnered to supervise Guyana Power & Light's grid expansion, including transmission lines, fiber optics, SCADA, and substations for improved electricity distribution. The proposed expansion and upgrade is for the distribution of power. The National Assembly has approved \$28. The funds, part of a broader.
