

Huijue 100Mbps Switch Industrial Features

Overview

This device adopts a storage and forwarding mode, with high performance and low power consumption design, and has the advantages of small size, easy use, and long lifespan. The product design complies with Ethernet standards and has an IP40 protection level, with added protection measures such as. Founded in 2002, Huijue Group is a high-tech service provider integrating intelligent energy storage equipment and computer intelligent network communication system integration and application. Huijue Network's products are exported to Europe, North America, Southeast Asia and other countries and. Industrial Ethernet switch through reasonable heat dissipation circuit design, wide temperature and wide pressure working environment, with anti-vibration, high/low temperature, dust, anti-surge and other high protection. Meet the requirement of different application scenes and make sure the stable. By adopting a 100Mbps industrial ethernet switch, factories achieve the necessary balance between cost-efficiency and performance, making it ideal for moderate-speed industrial communication networks. An L2 managed industrial switch provides advanced network management features compared to. Yuhang YHR05F an Industrial 5-port Fast Ethernet Switch, provides non-blocking wire-speed performance in harsh industrial environment. It also provides 5-port 10/100BASE-TX RJ45 copper interfaces delivered in an IP40 rugged, strong case with redundant power system. Compliant with FCC, CE, and ROHS standards, this switch operates in temperatures from -40°C to 85°C, making it.
