

# Lithuanian 12-color bundled pigtail fiber low-temperature resistant directly supplied by manufacturer

## Overview

Telhua's factory-terminated LCAPC 12-core fiber optic pigtail with TIA/EIA color coding enables high-density, reliable installations with  $\leq 0$ . FS 12 fibres pigtails with LC SC connectors feature color-coded or bunch design for various fibre splicing applications. 100% end-face, 3D interferometer, IL & RL tested. The 12 fiber pigtails are colored according to color code DIN VDE 0888 in red, green, blue, yellow, white, gray, brown, violet, turquoise, black, orange and pink. The colour of the 900  $\mu$  jacket is dyed through to the 250  $\mu$  jacket. It supports data centers, CATV, PON, WDM/DWDM multiplexing, FTTH, and voice services in ATM and SONET networks. Ideal for FTTH, LAN, WAN, and MDU applications, it ensures low insertion loss and high return loss. Each strand is terminated on one end and the other end is left blunt so that it can be spliced to your drop cable to eliminate the need for annoying field terminations and save time.
