

Norway Cable Tray Project

Overview

The pilot involves the reuse of technical installations, specifically cable trays from a commercial building in Oslo, Norway. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. The station will be an integral part of the NordLink interconnector between Norway and Germany. “Only Oglaend System could guarantee the specified. The Norway cable trays market represents a critical component of the nation's industrial and construction infrastructure, facilitating organized and secure cable management across diverse sectors. As of the 2026 analysis period, the market is characterized by steady demand underpinned by Norway's. We have wire trays, data racks and all accessories you need to install your cables in an easy, fast and high qualitative way. Nordic Wire Tray becomes Nordic Wire Tray.
