

Price List for Optical Cables in Ducts

Overview

A simple 1-core FTTH drop cable costs around \$0.13 per foot, while a 288-count optical fiber cable for building backbones can reach \$6 per foot or more. These are used in exchanges and data centres. Easily mounted above equipment racks or below floors, it provides an easy access as it is available in seven sizes. It is most important to select a size that allows for expansion and future additions to the ducting system. Pre-terminated assemblies and patch cables incur higher costs due to factory termination, with prices varying by connector type and the number of fibers. Welcome to our Fibre Optic Ducting collection - your go-to source for reliable and efficient solutions to facilitate the installation and protection of fibre optic cables.
