

Swiss Spectrometer Manufacturer

Overview

Spectroswiss is a Swiss technology company developing and producing hardware components and software for Fourier transform mass spectrometry. Founded by distinguished physicists Professors Peter Schurtenberger and Frank Scheffold, LS Instruments emerged from extensive research into soft materials. Recognizing the limitations of existing light scattering methodologies in studying concentrated samples, the founders embarked on a mission to. We are the German sales organization of Metrohm AG, Switzerland, one of the world's leading instrument manufacturers for ion analysis. QualySense, a young and innovative Swiss company, has invented the QSorter® technology, a sophisticated high-speed single-kernel robot, which measures the compositional and physical quality of each seed or grain at very high speed and sorts, from 30 to 3'000 per second.
