

Upgraded version of OPGW fittings from Australia

Overview

AFL Global's Apex OPGW Connector Kits provide reliable and efficient connections for optical ground wire cables. These kits are designed for durability and ease of installation, ensuring optimal performance in power transmission and telecommunications networks. The combination of retaining rods, wedge and housing distribute axial and compressive loading over a large area of the OPGW cable. Both a downlead clamp (FDOA-XXYY; sold. OPGW fittings in Australia refer to the specialized hardware used to attach and support optical fiber cables that serve dual purposes: grounding electrical systems and transmitting high-speed data. We can use 3M products use the well established 3M Cold Shrink Rubber Egral Hi-K stress control, are supplied expanded on a removable core. The closure is suitable for use above ground. It can be attached to high voltage towers, poles (wooden, concrete, or steel).
